

# Aluminium Post Cap – How do I install to the top of the fence post?

Cast Aluminium Post Cap Installation to the top of the post.

Installation is made simple

1. Remove the screws from the lid of the casting
2. Drill some screw holes through the bottom casting. Drill holes through the side if fixing over the top of the post
3. Put the screws through the bottom holes and screw down tightly into the post
4. Replace the lid and refit the screws.
